

XIII International Congress of IACMAC/ESCMID «Antimicrobial Therapy»

Moscow, 18-20 May 2011

18 May, Wednesday

08.00-18.00 Registration

Symposium “Perspectives in microbiological diagnostics of infections and susceptibility testing”

Co-chairs: V. Govorun, M. Edelstein, S. Sidorenko

10.00-10.30	Why do we need new diagnostic tools?	V. Govorun (Russia) Ye. Ilyina (Russia)
10.30-11.00	Different methods of susceptibility testing: pro and cons	M. Sukhorukova (Russia)
11.00-11.30	Why are the breakpoints so important?	S. Sidorenko (Russia)
11.30-12.00	Additional identification methods of the most important resistance mechanisms	M. Edelstein (Russia)
12.00-12.30	<i>Discussion</i>	
12.30-13.00	<i>Coffee break</i>	

Symposium “Priorities of antibiotic therapy in outpatient settings”

Co-chairs: A. Zhestkov, O. Stetsiouk, A. Khryanin

13.00-13.30	Modern aspects of antimicrobials safety: role of the evidence based medicine	O. Stetsiouk (Russia)
13.30-14.00	Antibiotics in pediatrics: searching for the best among equal	L. Kozlova (Russia)
14.00-14.30	Therapy of community-acquired upper respiratory tract infections: new look at old problems	I. Andreeva (Russia)
14.30-15.00	Diagnostics, treatment and prevention of sexually transmitted infections: a time of changes?	A. Khryanin (Russia)
15.00-15.30	<i>Discussion</i>	
15.30-16.00	<i>Coffee break</i>	

Symposium “Bugs and drugs in the multifield hospitals”

Co-chairs: R. Kozlov, K. Naber, A. Sinopalnikov

16.00-16.30	Antimicrobial stewardship: continuous optimization and control	R. Kozlov (Russia)
16.30-17.00	Empiric therapy of complicated urinary tract infections in different categories of patients	K. Naber (Germany)
17.00-17.30	Community-acquired pneumonia in the hospital: different treatment for different patients	A. Sinopalnikov (Russia)
17.30-18.00	Optimization of antimicrobial therapy of surgical infections	M. Cakmakci (Turkey)
18.00-18.20	<i>Discussion</i>	
18.20-18.30	<i>Opening ceremony</i>	G. Cornaglia (Italy) R. Kozlov (Russia)
18.30-21.00	<i>Welcome dinner</i>	

19 May, Thursday

08.30-18.00 *Registration*

Meet-the-expert session “Managing ICU patient – if everything is not as in the textbook”

Experts: J. Cohen, V. Rudnov

08.30-09.00 Immunoglobulins in sepsis V. Rudnov (Russia)

09.00-09.15 *Discussion*

09.15-09.45 Extracorporeal endotoxin removal as an approach to sepsis treatment J. Cohen (UK)

09.45-10.00 *Discussion*

Symposium “Empiric start therapy of severe infections”

Co-chairs: V. Kubishkin, S. Suleymanov, A. Firsov

10.00-10.30 Pharmacoeconomic studies in Russia – why are we so different? S. Rachina (Russia)

10.30-11.00 Pancreonecrosis: strategy and tactics V. Kubishkin (Russia)

11.00-11.30 Pharmacodynamics of new antibiotics active against gram-positive bacteria A. Firsov (Russia)

11.30-12.00 Control of antimicrobial resistance epidemics: what can we do better? J. Rodríguez-Baño (Spain)

12.00-12.30 *Discussion*

12.30-13.00 *Coffee break*

Symposium “News in treatment and prophylaxis: bacterial infections”

Co-chairs: A. Dekhnich, D. McIntosh, G. Reshedko

13.00-13.30 Gram-negative bacteria: clinical significance and therapy problems G. Reshedko (Russia)

13.30-14.00 What can we oppose to multiresistant and panresistant Gram-negative bacteria G. Cornaglia (Italy)

14.00-14.30 Review of IDSA MRSA treatment guidelines A. Dekhnich (Russia)

14.30-15.00 Vaccines for prevention and treatment of nosocomial infections: dreams or reality? D. McIntosh (UK)

15.00-15.30 *Discussion*

15.30-16.00 *Coffee break*

Symposium “News in treatment and prophylaxis: fungal infections”

Co-chairs: C. Viscoli, N. Klimko, A. Kolbin

16.00-16.30 Fungal infections in Russia N. Klimko (Russia)

16.30-17.00 Therapy of system mycoses: pharmacoeconomical aspects A. Kolbin (Russia)

17.00-17.30 Resistance to antifungal agents: what should clinicians keep in mind? A. Veselov (Russia)

17.30-18.00 The echinocandins: three useful therapeutic alternatives, or are three too many? C. Viscoli (Italy)

18.00-18.30 *Discussion*

20 May, Friday

09.00-15.00 *Registration*

Plenary session

Co-chairs: N. Zubareva, Yu. Lobzin, A. Platonov

10.00-10.30	Global infectious threats: current state and future	Y. Lobzin (Russia)
10.30-11.00	New aspects of tick-borne infections in Russia	A. Platonov (Russia) L. Karan (Russia)
11.00-11.30	Moot points of antibacterial prophylaxis in surgery	N. Zubareva (Russia)
11.30-12.00	New trends in management of viral hepatitis	O. Buyeverov (Russia)
12.00-12.30	<i>Discussion</i>	
12.30-13.00	<i>Coffee break</i>	

Symposium "Evidence based medicine in antimicrobial chemotherapy"

Co-chairs: S. Zavidova, V. Omelyanovskiy, S. Rachina

13.00-13.30	Are clinical trials and meta-analyses really useful for the treatment decisions in infections?	V. Omelyanovskiy (Russia)
13.30-14.00	Clinical trials in Russia: past, present and future	S. Zavidova (Russia)
14.00-14.30	Should the prolonged infusion be preferred for all β -lactams?	J. Mouton (Netherlands)
14.30-15.00	Role of clinical pharmacologist in treatment, prophylaxis and control of infections: official documents and real practice	E. Eliseeva (Russia)
15.00-15.30	<i>Discussion</i>	
	<i>Closing of the Congress</i>
